

Use this template as a guide to planning and preparing your award board entry.

You may layout your board as you wish, placing text and images within the available space shown on the board template.

Remember: **DO NOT INCLUDE ANY UNIQUE IDENTIFIERS ON YOUR BOARD**

FOR EXAMPLE

- 1. No names of individuals
- 2. No company names
- 3. No regional identifying information

When using this template please remember to check the following points before saving as a PDF and submitting your board online.

1. Has the space for administration use only been kept clear? This is where your business card will be affixed to the board after judging is completed, will it fit comfortably?
2. Has the border margin been kept clear? This is important for printing purposes.
3. Boards are to be **A2 (approx. 420x600mm)** size in horizontal format.
4. Are you entering the **Master Joiner** awards or the **Apprentice** awards? Be sure to state which program you are entering. Visit the awards web page for the list of categories you can enter.
5. Have you clearly listed the **award categories** you are entering the award board into?
6. Are the photo images the best possible resolution? Boards entered with images that are pixelation or the resolution is too high will result in the images being affected when printed. Please include images of the manufacturing of the product as best you can.
7. Make sure your board has **no unique identifying** features. **You cannot have names of individuals, companies, regions or logos.**
8. Submit your PDF award board via the online entry portal and our electronic business card.
9. You may submit additional images for the judge's exclusive use to judge the project.
10. Include details in the project narrative which demonstrate the skills, workmanship and complexity involved. If entering the compliant timber joinery category, please state in the narrative how it is compliant i.e. what standard does it meet.

Leave this space clear for awards administration use.

Project description-include materials used

Write a narrative of the project

Include details in the project narrative which demonstrate the **skills, workmanship** and **complexity** involved. Include information on the degree of difficulty and any aspects of functionality which tell the story. If entering the compliant timber joinery category, please state in the narrative how it is compliant.

The layout of this board template may be adapted to suit the entrant. The layout shown is a demonstration only. You must submit a narrative of the project on this board.

Please check the resolution of the images selected to ensure best quality printing.

Include images of the project during manufacturer.

Ensure the margin is not intruded on as the printing of the boards require trimming and content may be lost.

Check the board is A2
